

Innovative Electric - Water - Heaters

Quality products from the German market leader

CLAGE can look back to a tradition of 50 years – specialized on the research and development, production and world-wide distribution of high-end electrical water heaters. Our team of experts constantly aims to develop products of even higher standard – as well as researching further energy improvements for more ecological efficiency. As a result of such exceptional quality standards, CLAGE products have achieved various awards and are today world-wide appreciated for their outstanding performance and attractive design.

D range

High-tech for more bathroom comfort

IES SYSTEM Hot water in 2 sec! Our fully electronic D models allow you to touch-key and pre-set a desired temperature, precisely to a single degree. The highly innovative electronic inside regulates a constant flow for warm water – while at the same time ensuring an optimum of energy efficiency – yet holding the operation costs low. The unit is even solar energy compatible – optional is a remote control.

380/400 V, 3 ~ required

C range

Compact units for modern kitchen requirement

The ultra compact size of CLAGE water heaters saves plenty of useful space under the sink. With these unique units, no energy loss will ever occur – while in comparison to conventional storage-tank heaters easily abt 40% energy can be saved.

M range

Small & energy saving for hand-wash basin use

IES SYSTEM Hot water in 2 sec! The astonishing small design of these models is perfectly applicable for single outlets (vented or unvented) and they are easy to install. They even can save up to 65 % energy, compared to conventional storagetank heaters. Moreover, they only require 10% of space – normally wasted by storage units.
